June 20, 1988

Dear Bill,

I received your letter and tape today. This is WNCA in Siler City. The announcer on the tape was Brian Drye and you recorded him saying "It's time now for The World of Racing with Ned Jarrett here on WNCA", then he played the taped show that mentioned Bill Elliot.

To answer a few of your questions about the station - our frequency is AM 1570; our wattage is 1,000; our antenna is 200 feet; our broadcast hours are from 6am to 10pm Monday thru Saturday and until 9pm on Sunday's. As for our general coverage area - a 30 mile radius; our studio and transmitter are located on Highway 64 west in Siler City. We are affiliated with the North Carolina News Network and our fathest signal report I think may have been New York. Our general format is Adult Contemporary.

And as for your last question about DX letters, we have not ever received many, at least not in the past six years since I've been here.

I hope this will help you with the information you are looking for and I'm glad you were able to pick up our station in New Jersey.

Sincerely.

Renee' R. Kennedy
